SuperNop Product Suggester Plugin Support Documentation

Product Suggester is a great extension to enhance your catalog by suggesting products from customers. Customer can suggest a product for your site if your site is not having that product that customers would like to see in your product catalog.
How to install plugin?

Copy plugin folder into your **/Plugins** folder and from admin panel Local Plugin list try to reload plugin.

After doing this plugin will display into the List with SuperNop Logo. Go to the plugin and Click to install.

You don't have to active it manually, after installing it will be mark as Active automatically.

After completing the installation process you will see there are two new menus in admin area.
